Saturday, April 13 ▪ 10:30 am – 4:30 pm ▪ GSU Dunwoody Campus Student Center (Bldg. NB)

Naido
The Way of Embroidery

IKEBANA *Japanese Flower Arranging*

Needle Art & Zen

Japanese embroidery originated more than 1600 years ago, and over time it took on a more artistic purpose. During Japan's classical age, it was used for decorating the costumes of the Ladies of the Imperial Court, available only to the highest ranks of society who could afford such costly work. However, this important cultural heritage is now available to a wider audience and continues to develop a more spiritual purpose.

The Love of Flowers

Today there are many schools of Ikebana, but it began with Ikenobo over 550 years ago. Its history encompasses the traditional and the modern interacting to encourage new development in today's ikebana. Like a poem or painting made with flowers, it reflects not only beauty, but the passing of time and the feelings in people's hearts. Ikenobo's spirit and popularity has spread not only in Japan but throughout the world.
